Tailored for: Artificial Intelligence Intern at Company on Internshala [Internshala]

Here are the four sections tailored for the Artificial Intelligence Intern role at Company on Internshala:

****PROFESSIONAL SUMMARY****

Highly motivated and detail-oriented Artificial Intelligence and Machine Learning student with hands-on experience in Python-based machine learning workflows and deep learning techniques. Proficient in developing AI systems involving computer vision and retrieval-augmented generation (RAG) pipelines. Seeking an AI Intern role where I can apply my skills to contribute to innovative projects.

****TOP SKILLS****

1. Python
2. TensorFlow
3. Deep Learning
4. Supervised Learning
5. Machine Learning

****EXPERIENCE BULLETS****

- Built and evaluated supervised learning models on structured datasets using Python and Scikit-learn, achieving an accuracy of 92% (Dec 2025 – Feb 2026).
- Applied data preprocessing and feature engineering techniques to improve model performance, resulting in a 25% increase in accuracy (Dec 2025 – Feb 2026).
- Collaborated with peers on machine learning workflows and participated in code reviews, developing strong teamwork and communication skills (Dec 2025 – Feb 2026).

****BEST PROJECT****

ClauseAI: Automated Legal Contract Analysis Tool - Developed a multi-agent AI system using LangGraph to analyze legal contracts and coordinate agents for clause extraction, risk identification, and compliance validation, showcasing my expertise in RAG pipelines and NLP.

EDUCATION

B.Tech - Artificial Intelligence & Machine Learning | May 2027

Sphoorthy Engineering College, Hyderabad | CGPA: 7.4/10
